

HME and Pharmacy Consulting Services

With more than 35 years of HME and Pharmacy industry experience, we understand your business needs. We have assisted and supported clients throughout the HME market to overcome industry challenges and build revenues in a complex, changing environment. Our consulting expertise includes providing corporate compliance plans; assisting in rectifying fraud and abuse cases; and delivering educational assistance, in-depth consultation and industry expertise to providers.

Industry Expertise

At CareCentric, our experienced staff stays on top of industry issues and actively participates in industry committees, advisory councils and service organizations. We also frequently present at national and state association meetings and regularly contribute to home care industry publications.

Diverse Customer Base

CareCentric serves more than a thousand customers nationwide and has helped organizations of all sizes and types to achieve their billing and operational goals. Serving the home care continuum is our only business. We are solely focused on helping home care providers achieve success through technology, business-operation and outsourcing solutions. Our clients include regional and national chains, small and large medical equipment providers, and home care pharmacies.

Custom Services

Once you become a CareCentric client, you gain access to the industry's leading consultants and home care technology experts. Our HME consultants are available to assist you in controlling costs, increasing cash flow, reducing days-sales-outstanding, and improving overall operational efficiency. We know what it takes to run an efficient business poised for growth.

Our consulting services are available to address your every need and are customized to your specific challenges—whether strategic or operational.
